

Rapid Results for Dynamics NAV

A low risk, fixed cost implementation of a market-leading business solution.

Who is this service for?

- » Organisations that want to improve their financial management and controls in addition to accessing financial information easily.
- » Organisations looking to retire legacy systems and move to a leading edge platform.
- » Organisations looking for a "quick win," wanting to deploy a financial system quickly, from a long-term support partner.
- » Organisations looking for certainty of cost from a FMIS implementation.

Fast-track your implementation of Microsoft Dynamics NAV.

Whether you're looking to replace a legacy system, or implement a market-leading enterprise resource planning (ERP) solution, Microsoft Dynamics NAV delivers a full-featured offering for organisations of all sizes.

Over the past 15 years, Microsoft Dynamics NAV has established itself as a market-leading leading contender for mid-sized organisations looking for a complete ERP solution that is fast to implement, easy to configure, and simple to use.

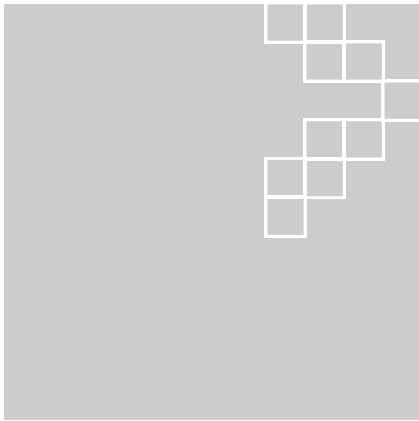

Microsoft Dynamics NAV's state-of-the-art functionality covers everything you need to run and grow a successful business. More than one million users have used Microsoft Dynamics NAV to simplify and streamline their highly specialised business processes.

Because NAV utilises the same underlying Microsoft platform as many other solutions, you have the opportunity to leverage existing

applications, skills and investments across multiple solutions.

By applying the experience it has gained through dozens of Dynamics NAV implementations, InterGen has developed a solution that meets the requirements of most organisations, while also reducing the risk and investment of a traditional implementation of financial management software. Rapid Results for Dynamics NAV is a fixed scope and fixed cost offering that allows your organisation to implement a leading financial management system in a ten-week timeframe.

Whether you're looking to replace an existing system, or you are simply wanting a step-change in how you manage your valuable financial information, this offering not only delivers immediate benefits, but provides a foundation upon which additional capabilities can be added in the future.

Intergen Rapid Results for Dynamics NAV_

Key Features

Intergen Rapid Results for Dynamics NAV enables organisations to quickly get up and running, using a predefined scope and a proven implementation approach. Key features include:

- » **Rapid Implementation** of Microsoft Dynamics NAV – delivered within ten weeks of elapsed time.
- » **No customisation** to the standard product, minimising your cost, risk and overall timeframe.
- » **Targeted Scope.** Focussed on core financials and basic inventory management functionality.
- » **Delivers a foundation.** This can be used as a “building block” for any subsequent projects, where organisations may look to implement more advanced functionality.
- » **Cost certainty** is delivered through a fixed cost for implementation

If you require a more advanced solution than that provided as part of this Rapid solution, Intergen can discuss options and costs.

Scope

The Intergen Rapid Results predefined scope covers the following features and functions:

- » Module/functionality scope:
 - » General Ledger and General Ledger budgets, Cash Management, Sales Orders, Invoicing and Accounts Receivable.
 - » Purchase Orders, Invoicing and Accounts Payable.
 - » Fixed Assets Management.
 - » Basic Inventory Management including Bills of Materials (Kitting) and Serial Number Tracking (if applicable).
 - » Multiple Currencies.
 - » Management reports, using Dynamics NAV tools.
- » Business forms – tailoring of five business forms (reports): Cheque, Remittance, Invoice, Statement, and

Purchase Order document to suit the organisation.

- » Post-live support – Three half days, plus one additional day of support at month-end.
- » High-level documentation.

What we need from you

To implement Rapid Results for Dynamics NAV in our ten (10) week timeframe we need your support. We would expect you to:

- » Make available relevant staff for training in the use of the application and reporting tools.
- » Perform all data conversion, including data cleansing, manipulation and massaging.
- » Produce test scripts and perform User Acceptance Testing activities.

How much does it cost?

Intergen Rapid Results for Dynamics NAV is priced at \$80,000 (fixed price) excluding GST, hardware and software licenses.

Intergen will work with you to identify and quote for your specific software licensing requirements.
